Phil, let's go for the 1500-1600 on July 11th. Our plan is to get a meeting room at the Central Library downtown. Once that is booked, I will confirm with you or let you know if that changes. Thanks!

Subject: Community Involvement Interview Request for Des Moines TCE Superfund Site

Good Morning,

Hi, My name is Erin McCoy. I'm a Remedial Project Manager for the United States Environmental Protection Agency. I'm sure you have heard of the Des Moines TCE Superfund site in your community. EPA believes that community members like you have valuable insights and can often provide information that can be helpful in determining how to address a site.

On July 11-12, 2016, Pamela Houston, Community Engagement Specialist for the EPA and I, will be in your neighborhood. We will be conducting interviews to learn more about the community and what it needs from EPA. We would greatly appreciate your input. The

interview should take less than an hour and your participation will be kept confidential. Your participation will help EPA get a better picture of what is important to local residents near this site and how EPA can ensure that the community's needs and concerns are addressed. If there are others in the local community you feel we should speak to, be sure to share our contact information with them. We would be particularly interested in meeting with any PTA leaders that could be associated with any potential stadium built in the area.

We would like to arrange a time that will be convenient for you to meet with us during our visit on July 11th and 12th. I have enclosed a list of times we still have free below. I think the interviews will take about 30 minutes. Feel free to contact either of us toll-free at 800-223-0425 to let us know what will work best with your schedule. If you prefer, we can correspond via email, mccoy.erin@epa.gov or houston.pamela@epa.gov.

Thank you for your participation. Your input is valued and appreciated. We look forward to meeting you on *July 11th or 12th*.
